***Planning, Public Policy and Management***

**Brief Justification**

Leadership is a strong component of the PPPM 325 class, and the CliftonStrengths assessment will help students learn more about themselves and identify the strengths they can use as they develop as leaders. The \$15 fee is the CliftonStrengths' education rate for individual assessments. The Holden Center used to pay for it, they would buy a whole bunch of licenses and then give them out as departments requested them. A couple years ago their budget got cut so PPPM began paying for the CliftonStrengths Licenses. We believe the students should pay for them as they are the ones ultimately benefiting from them.

**College of Education**

***School Psychology***

**Brief Justification**

Test kits and protocols/scoring sheets are purchased for students enrolled in these classes. Students use approximately 5 protocols/scoring sheets each which need to be replaced as they are used. Test kits are reusable and replaced as they experience wear and tear during the term. Kits are also required to be purchased approximately every 8 years when norms are updated. To keep the cost reasonable, program is not charging the full cost.

***Biology/OIMB***

**Brief Justification**

This fall we were over budget by \$1,298. The cost of a bus has increased, and our enrollment is down. Enrollment is down because 213 is no longer required for HPHY majors. We would have needed to charge \$66 per student to cover this years two buses for a total cost of \$3,998.

Subj Code	Course Number	Course Title	Description	Fee Structure	FY24 Max Fee	FY25 Max Fee
BI	213	General Biology III: Ecology and Evolution	Biology Field Trip Fees	Flat	\$45	\$85

**Brief Justification**

We are charging the cap currently and were within \$157 last winter. The bus company is now charging us a gratuity for the bus driver. If we add the required 15% to the cost of our Bi 357 trips to OIMB last year we would have been over budget by more than \$700.

Subj Code	Course Number	Course Title	Description	Fee Structure	FY24 Max Fee	FY25 Max Fee
BI	357	Marine Biology	Biology Field Trip Fees	Flat	\$90	\$120

**Brief Justification**

This increase is to cover course expenditures for the labs including reagents, materials and particularly the increase in sequencing prices required for the course.

Subj Code	Course Number	Course Title	Description	Fee Structure	FY24 Max Fee	FY25 Max Fee
BI	457/557	Embryology [Topic]	OIMB Authorized Lab Fee	Flat	\$75	\$85
BI	457/557	Marine Biology: Marine Molecular Biology	OIMB Authorized Lab Fee	Flat	\$200	\$290

**Brief Justification**

Increases are due to close monitoring of course supplies (herbarium paper etc. ) and cost of van rentals and fuel for field trips and new research vessel with increased fuel use/costs. These courses are field-trip heavy with many van trips and 1 boat trip. We have likely been underestimating the cost of van-based field trips for years by not tracking the rental prices and fuel increases.

***Chemistry***

**Brief Justification**

Requesting a \$5 lab fee increase to offset the cost of providing individual safety goggles to all students. Students will retain the goggles. Common use goggles have been provided to students that were cleaned by staff between sections and then reused by other students, this shortens the life of the goggles and uses significant staff time and the potential for increased germ transmission. Fee includes an expected loss/breakage which happens during each class. Fee also covers costs of materials and supplies consumed during the course such as gloves, safety equipment, chemicals; and equipment maintenance for instruments that have replaceable or consumable components whose service life is directly related to student usage.

***Environmental Studies***

**Brief Justification**

Increase to meet transportation costs, with many van rentals. Field trips vary from 2 days to weeklong.

**Brief Justification**

To cover increased material cost for consumables required for the courses. 493/593 and 494/595 has not increased in 3 years and provides field equipment that requires replacement and a kit of parts for a competition. 411 has not increased in 10+ years, is variable in the instructor and topic.

**College of Design**

***Art Department***

**Brief Justification**

Proposal to increase AFAFEE class fee by \$15 due to additional projected costs for AY 24-25, including not only increasing labor costs but also the need for expanded technical support in our Foundation class areas and monitoring of students in Art studio classes for safety. These tasks will add at least an additional 1.0 FTE in total labor costs. Part of this FTE will go toward a new Foundations lab tech and the other portion will be used to add additional flat wage student workers for an estimated additional \$72,432 in salary and OPE.
